SEO Website Organic Traffic Campaign: From 12/2020 - 3/2021, results in 4 months!

**When started I focusing
on content!**

Brianne had years of blogging and a plethora of old content to focus on. I used my signature content boost strategy to drive organic traffic to her website. By re-evaluating keywords and working with the highest traffic pages first and optimizing articles and reindexing.

5 star Google review:

"Cheryl has assisted me for the last several years, and I am so grateful for her services. She is extremely responsive, and I feel confident that I can leave tasks in her hands knowing she will get them done on-time and in a professional, self-directed manner. I am also grateful that she is willing, from time-to-time, to be a sounding board for me on issues related to my business. Together, we're growing my company using tools such as Pinterest, refreshing blog posts, and using her training to improve my SEO scores and page rankings. I love that she KNOWS my brand inside and out and can act as an extension of it! Cheryl is my "right-hand woman," and I'm lucky to have her on my team."
