

SEO Website Case Study ~ Traffic up 400%!

Web Designer, Chrissy Marquardt and I have been working together for several years. She has included me as an SEO contract for site design launch.

This is a 17 page stainless steel manufacturing site that I completed all SEO optimization. This last client has been so happy with the increase in traffic and shared his latest GMB email with us.

I am so grateful for this review:

"Cheryl and I have worked together for a number of years, and she is an absolute joy and delight to work with. We've worked on a few different SEO projects, and I love how knowledgeable she is about SEO. As a designer, I already feel like I wear 10 different hats, I cannot tell you what a mental relief it is to be able to not only offer SEO to my clients, but hand it off to an expert who knows WordPress and geeks out about SEO. Cheryl's expertise has given me my time back to be able to focus my headspace elsewhere. To me, that's invaluable, and I would highly recommend her. Your website will suffer the consequences if you don't. If you're a designer who wants to offer SEO services to your clients, but have been hesitant to do so (because SEO is a beast) Cheryl is your girl." ~ Chrissy Marquardt, Scappoose Web Design
